Double Visions - Contemporary Art from Papua New Guinea

A rare Scottish opportunity to see work by artists from Papua New Guinea (PNG) in varied media. They have transformed cultural tradition into contemporary expression through their choice of materials, subjects and an awareness of life in PNG today. A special feature will be paintings by the major artist Mathias Kauage OBE (1944-2003) who once visited Scotland and met the Queen. Also exhibited will be delicate figurative sculptures from recycled metal by Tom Deko; oils on canvas by Martin Morububuna; Sepik river carvings by Lucas Tangun and Kaua Gita; and a range of textiles based on the traditional 'bilum' woven bag technique, featuring Cathy Kata.

'Double Visions: Contemporary Art from Papua New Guinea' is presented by FCA&C in association with the Rebecca Hossack Art Gallery, London.

15 May - 20 June 2010 - Kirkcaldy Museum & Art Gallery

3 July - 15 August 2010 - Gateway Galleries, North Haugh, St Andrews

Craft & Information Pods

These specially designed & made display cases were created to tour examples of exciting contemporary craft plus background information to non gallery venues in Fife. Currently they display a selection of silver filigree jewellery by Arabel Lebrusan and will be moving to Rosyth Library from the end of April till the end of May. In mid June the display will comprise examples of work by 'book' artists Rachel Hazell, Phiona Richards and Alix Swan. Full details on FCA&C's website

Causing Chaos

Featuring international craft and sculpture, the exhibition looks at how objects from both disciplines may reference things but subvert function through ambiguity of use and meaning. Curated by artist Claire Barclay for FCA&C.

11 September - 31 October 2010 - St Andrews Museum
