11 The two pieces are combined and should look like this, with the arms coming forward.

12 Take the card and fold it in half along the center fold line. Crease well, then open again.

13 Apply glue to the areas marked "glue here."

14 Take hold of the tab at lower left and position it over the glue area. Press the tab firmly onto the glue area. Let the glue set for 30 seconds.

15 Lift the angel's dress on the right side a little so you can get to the tab at the lower right. Position the tab over the glue area and press it firmly down.

16 The angel should now lay completely flat on the open card. Let the glue dry!

17 Slowly begin to close the card. Help the angel fold down into the card as you close it.

18 Your pop-up angel is ready for decorating.
